Notes:

1. BOC conducted a public test of the voting machine for this unit. Media was modified to only count the office of the President of the United States. Media was inserted. Zero report printed. Stick removed because it was for the wrong reporting unit. New stick Inserted. Zero tape run. Test decks run to test both reporting units. Totals tape run. Results announced. BOC compared test deck to run tapes and all BOC members agreed they are equal.
2. BOC discussed status of ballot machine count at table with tabulators. The registered write-ins were not tallied yesterday before running ballots in the machine. BOC needed to capture the candidate vote count for these registered write-in candidates and adjust the scattering accordingly. BOC discussed options to capture this data. Tabulator testified about the manner of tallying yesterday and assisted in reviewing ballots yet to be run in the machine. BOC decided they will start over with this ballot count by segregating all write-in and tally them before running ballots. BOC reviewed election night tape and determined that it is likely that write-in ballots have been run through the machine prior to being tallied. To remedy that, the solution is to remove all ballots from the machine, zero the machine, and restart the counting process. BOC removed ballots, confirmed the bin was empty and zeroed out the count.
3. Regarding Exhibits # 4 through 12, Town of Brookfield Deputy Clerk Elisa Cappozzo and Clerk Jane Carlson appeared before the Board and testified regarding the Absentee Ballot Envelopes. The BOC determined the envelopes were all valid.
4. BOC marked three ballots as Exhibits # 49, 50 and 51. Each of them contained a circle filled in for a candidate and a write-in name without the circle filled in. The BOC determined voter intent on each.

Exhibits:

- Exhibit # 4: Absentee Ballot Envelope: found to be valid  
Exhibit # 5: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit # 6: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit # 7: Absentee Ballot Envelope: same day registration form attached, found to be valid  
Exhibit # 8: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit # 9: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit #10: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit #11: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit #12: Absentee Ballot Envelope: not initialed by clerk, found to be valid  
Exhibit #49: Ballot Counted by the BOC as a vote for Trump  
Exhibit #50: Ballot counted by the BOC as a vote for Clinton  
Exhibit #51: Ballot counted by the BOC as a vote for Clinton

#### Notes:

1. P. 33 of the poll book (supplemental) Note shows +1 by a name with no explanation. Might be on the Inspector's Statement.
2. Signature of voter in one book and no number assigned in other book. Poll book issue. Motion by Novack and seconded by Heric: any time there is a number by a line it is counted as a vote for poll book purposes, even if voter did not sign. Any poll book can be further examined if there is a problem. Discussion of Motion: Objection by Stein representative. Should have a note in Inspection Statement before BOC says it is a valid vote. Discussion by BOC. BOC often goes by number because it is more representative of a ballot given to a voter. Training in municipalities is uneven. Vote: aye by Novack and Heric; No by Hansen. Motion passed.

3. Used Certificate Envelope marked as Exhibit #3. Signature and date for voter. Signature present, but unclear. All info is present for Witness. BOC finds it to be not defective.
4. Absentee voters = 593, Absentee ballots = 594. BOC examines poll book for voter 187. It was recorded as an absentee voter. If, after count of total ballots, a draw down is needed, the BOC will draw down from probable absentee ballots.
5. Exhibit #19: Used Certificate envelope with a ballot inside the envelope. Chief Inspector Debora Toldt testifies. Voter number was assigned. BOC determines that ballot should have been counted on election day, but was not. Ballot is valid and was added to the ballot pool to be counted.
6. Exhibit #20: Used Certificate envelope. Same issue as Exhibit #19. Ballot is valid and will be counted.
7. BOC determines that the Probable Absentee Ballot Pool is 596, which is the total of 582 from the stack of ballots identified by the tabulators, plus 12 Absentee Ballots from the write-in stack, plus 2 ballots returned to the ballot pool which were marked as Exhibits #19 and 20.
8. BOC opened the envelope called "Certificate of Rejected Absentee Ballots." One was properly rejected because the voter returned it, but died before election day.
9. BOC instructed tabulators to recount regular ballots into stacks of 10 and ballots with questionable signatures, write-in ballots and remade ballots due to discrepancy between poll books and the tabulator ballot count. Tabulators finished recount of regular ballots and there was no change. BOC decided that tabulators will go through poll book and count voters with voter number and one signature, mark voters without voter number and with a signature, and mark voters without one or the other. Stein candidate representative objected, stating that some wards were being treated differently than BOC earlier decided. BOC decided votes with a voter number, but no signature, shall be counted in a poll book count.
10. BOC determines that it will treat set aside ballots with only one set of initials as valid ballots that should be counted.
11. Some ballots had no initials, but BOC determines that the ballot is valid and there is clear voter intent and it will be counted.
12. Used Certificate Envelope marked as Exhibit #18. There is no address of a witness. Clerk Jane Carlson testified to Board. The person voted in person. The BOC found it to be valid.
13. Five ballots marked as Exhibits #44 through 48. These have a circle indicating a vote for president, but also have a write-in name written in without filling in the circle beside the write-in. These ballots were tallied by the tabulators on the sheet for registered write-in as votes for a named candidate so they will not be run through the machine.
14. BOC examined 58 set aside ballots. BOC determines that it will treat set aside ballots with only one set of initials as valid ballots that should be counted. There were 56 such ballots. BOC decides that ballots that have no initials can be valid and counted if there is clear voter intent. There were 2 such ballots. The 58 ballots were put in the ballot pool to be counted by machine.

Exhibits:

Exhibit # 3: Used Certificate envelope that BOC found to be valid.  
Exhibit #18: Used Certificate envelope that BOC found to be valid.  
Exhibit #19: Used Certificate envelope, ballot inside the envelope. Ballot is valid and will be counted.  
Exhibit #20: Used Certificate envelope. Same issue as Exhibit #19. Ballot is valid and will be counted.  
Exhibit #44: Ballot. BOC counts as a vote for Clinton.  
Exhibit #45: Ballot. BOC counts as a vote for Clinton.  
Exhibit #46: Ballot. BOC counts as a vote for Clinton.  
Exhibit #47: Ballot. BOC counts as a vote for Clinton.  
Exhibit #48: Ballot. BOC counts as a vote for Trump.

Notes:

1. BOC discussed Absentee ballot envelopes with tabulators. Dorothy Bugenhugen, Chief Election Inspector, testified about 2 envelopes for emailed or remade ballots. 69 envelopes. 71 absentee ballots noted. Exhibit #21 was a Used Certificate Envelope marked as #011 with no address from the witness. Exhibit #22 is a Used Certificate Envelope marked as #045 with no clerk initial.

2. Jane Carlson, Clerk for Town of Brookfield, offers clarification regarding 2 envelopes that were missing in the morning. Envelopes recounted and 71 envelopes were counted.

Exhibits:

Exhibit # 21: Used Certificate Envelope. BOC found it to be valid.

Exhibit #22: Used Certificate Envelope. BOC found it to be valid.

<b>Total</b>	<b>1918</b>	<b>Total</b>	<b>1930</b>

Notes:

1. 830 Absentee ballots. 821 envelopes. BOC pulled Clerk's log. In log, 802 marked as voters that came in on election day. BOC counts 20 additional absentee ballots from Clerk's log.  $802+20=822$ . There will be no envelopes from the 20 that were in the Clerks log. BOC directs tabulators to work on this. Tabulators repot back. Some absentee ballots may have been brought in on election day.  $802+14$  brought in = 816. Count for envelopes = 821. 821 envelopes less 4 found to be defective = 817.
2. BOC heard the testimony of Town of Delafield Clerk regarding the Used Certificate Envelopes marked as Exhibits #23-29.
3. BOC asks tabulators to recount used certificate envelopes. BOC reviews the municipality's log at request of the Clerk. 824 is the number of voters per the log. This appears to be more accurate than number from election day.
4. There are 6 more ballots than voters and 4 invalid absentee ballots, therefore, 4 random ballots are pulled from absentee ballots and marked as Exhibits #68-71. Tabulators searched for blank ballots in order to draw down 2 more ballots, but none were found. Tabulators found 18 ballots with single initials from poll workers. BOC drew down 2 from this pool and marked them as Exhibits #74 and 75.
5. BOC reviewed the recount numbers. BOC reviews 6 drawn down ballots that were marked Exhibit #s 68-71 and 74-5. BOC will add 2 of the drawn down ballots back into the count. Republican Primary Candidate Representative asks BOC to put back into the count the last 2 drawn down ballots marked as Exhibits #74 and 75. BOC agrees. Exhibits 74 and 75 are counted and BOC changes minute sheet and results are announced.

Exhibits:

Exhibit # 23: Used Certificate Envelope marked with #362A. BOC accepted as valid.

Exhibit # 24: Generic envelope mailed from Edinburgh, UK and marked as #418A. BOC determined it to be defective.

Exhibit # 25: Used Certificate Envelope that was in a Fed Ex Envelope and marked as #185A. BOC determined it to be defective.

Exhibit # 26: Used Certificate Envelope marked as #491A. BOC accepted as valid.

Exhibit # 27: Used Certificate Envelope marked as #806A. BOC determined it to be defective because the individual signed as their own witness and mailed it.

Exhibit # 28: Used Certificate Envelope marked as #137A. BOC accepted as valid.

Exhibit # 29: Used Certificate Envelope marked as #135A. Not signed by voter, defective.

Exhibit # 68: Ballot pulled during draw down procedure: vote for Clinton.

Exhibit #69: Ballot pulled during draw down procedure: vote for Trump.

Exhibit #70: Ballot pulled during draw down procedure: vote for Clinton.

Exhibit #71: Ballot pulled during draw down procedure: vote for Trump.

Exhibit #74: Ballot pulled during draw down procedure: vote for Kasick (scattering).

Exhibit #75: Ballot pulled during draw down procedure: vote for Trump.

Exhibit # 77: Ballot won't go through machine and will be hand counted as a vote for Trump.

<b>Total</b>	<b>1210</b>	<b>Total</b>	<b>1222</b>

Notes:

1. 3 ballots were pulled for inspection: Exhibits # 36, 57 and 66. Stein candidate representative objected.
2. BOC reviews 16 remade ballots against 10 originals. BOC cannot determine if the remade ballots are accurate without the originals so the remade ballots not being added to the ballot pool at this time. Instead the BOC marked them as exhibits. In envelope there are 5 spoiled ballots. 11 ballots rejected and marked as Exhibit. BOC members Heric and Hansen split on whether clerk could match ballots. Hansen does not agree as clerk did not catch on election night. Novack recommends if the number of ballots match then use them. But, there are not matching ballots. BOC agrees to remove one of the ballots marked as an exhibit and put the rest back into the pool. Returning 10 ballots to the pool due to the unnumbered originals and spoiled ballots equaling 10. Exhibit #57 has been randomly pulled from the count (vote for Clinton).
3. Letter from Deputy Clerk Laruen Beale received by the BOC on 12/1 regarding exhibit recorded by BOC. (Marked as Exhibit #35.) It reads: "The Absentee ballot envelope you questioned which has a statement written by me to "see enclosed" is the result of a voter coming to our office with an absentee ballot and certification form which had been emailed to the voter. The voter had voted the ballot and completed the certification form, including having the witness certification signed (including both the signature and the witness address) but didn't understand what to do with the materials. I gave the voter an absentee envelope and asked the voter to seal everything in the envelope. I wrote the note on the outside of that envelope to "see enclosed" since the voter had sealed all necessary materials inside for the voter's ballot to be counted/recorded. As you can see on the upper right corner of that envelope, the ballot was cast/given an absentee number. I simply didn't have a blank, empty envelope to give the voter to put the certificate on the outside and seal the ballot in. I used/gave the voter the next best alternative which was an actual absentee ballot envelope. I could have had the voter tape the certificate to the outside but chose to have them seal everything together so it wouldn't get separated."

Exhibits:

Exhibit #35: Used Certificate Envelope marked as #490A. BOC accepted as valid.  
Exhibit # 36: Facsimile or copy of an official ballot. Rejected as invalid.  
Exhibit #55: rejected remade ballot due to no original; subsequently returned to pool

Exhibit #56: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #57: rejected remade ballot due to no original. Withheld by BOC (Vote for Clinton).  
 Exhibit #58: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #59: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #60: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #61: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #62: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #63: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #64: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #65: rejected remade ballot due to no original; subsequently returned to pool  
 Exhibit #66: remade ballot with two original numbers

Variance: Registered write-in candidate McMullin had 2 votes reported on election night and the recount number for him is 11 votes. The variance is due to the tabulators today being more fresh than election officials after election day and more accurately identifying write-in ballots for this candidate.

Notes:

1. Motion by Novack and second by Heric. Not required for recount purposes that poll list contain the absentee ballot number as long as the total number shows the voters. Motion withdrawn by Novak.
2. Log:
  - W 1 = 199 Absentee ballots returned
  - W 2 = 127 Absentee ballots returned
  - W 3 = 141 Absentee ballots returned
  - W 4 = 198 Absentee ballots returned
  - TOTAL 665

Envelopes = 703 + 4 in rejected envelope. Inspector's statement reviewed, count is 710 absentee ballot votes. Envelope of rejected absentee ballots is 4.
3. Objection by Stein representative to the municipal clerk process: Numbers were pre-assigned to absentee ballots. Some of the rejected ballots were given voter ID numbers. The number of voter ID numbers does not match the number of votes. The Town of Eagle Clerk, Lynn Pepper, and Chief Inspector, Jessica Chamberlain, are present and give information to the BOC: if ballot was rejected, they reuse the number so the count is correct. BOC resolves the objection with Clerk testimony.
4. Minutes reflect 703 absentee ballots and 4 rejected. Statement said 710 votes. Number is correct (703).

Exhibits:

Exhibit # 52: Original remade ballot #2 marked "Damaged", pulled from voter pool. Vote for Trump.  
 Exhibit # 53: Duplicate ballot #3 marked "Damaged", pulled from voter pool. Vote for Trump.

Notes:

1. Exhibit # 13: Envelope marked as #A30 and mailed from Australia. Municipal Clerk Meri Majeskie testified before the BOC. She believes the Used Certificate Envelope relating to Exhibit #13 is in the remade ballot envelope. The envelope marked as Exhibit #13 was found by the BOC to be defective. It will be taken out of envelope count. It can be reviewed at time the bags are open and the remade ballot envelope is opened. BOC considered it as defective and removed from the envelope count. Later the BOC opened the remade ballot envelope and marked as Exhibit #54 a copy of a ballot marked as "Original Ballot #1" and a copy of a Used Certificate Envelope that was stapled to it. Exhibits #13 and 54 bear the name of the same voter and support the testimony of the clerk. The BOC will not remove a ballot based on this explanation.
2. Clerk testifies about e-mailed ballot marked as Exhibit #14. A military absentee voter requested email ballot because of active duty. Voter came in person on election day and voted at polls. The clerk said she should have removed this envelope. The clerk felt there should be one less absentee ballot and one less voted at poll in the recount. BOC determined that the envelope was not defective.
3. Clerk says there were 703 absentee voters. BOC accepts 703 as absentee ballot applications.
4. Used Certificate Envelope marked as Exhibit # 15: It is an absentee ballot envelope marked as #A299. It appeared that a mother assisted her daughter in completing the envelope. BOC accepted as valid.
5. Used Certificate Envelopes marked as Exhibits # 16 and #17: Absentee ballot envelopes marked as #A318. The municipal clerk testified that the address is for the Town Hall. Human error by Clerk not to sign. Voted in person. BOC accepted as valid.
6. Tabulators note two ballots are from different wards: Wards 1, 3, 5 & 9 – 1 ballot; Wards 6, 7, 8 – 1 ballot. Municipal Clerk requested that these two ballots be moved to different reporting units. BOC decided to move ballots to correct reporting unit.
7. One ballot with a write-in did not have a circle filled. BOC hand counts it as one vote for McMullin.

Exhibits:

Exhibit # 13: Envelope marked as #A30, mailed from Australia.

Exhibit # 14: Absentee ballot envelope with "Emailed A62" written on front. BOC accepted as valid.

Exhibit # 15: Absentee ballot envelope marked as #A299. BOC accepted as valid.

Exhibit # 16: Absentee ballot envelope marked as #A318. BOC accepted as valid.

Exhibit # 17: Absentee ballot envelope marked as #A363. BOC accepted as valid.

Exhibit # 54: Copy of a ballot marked as "Original Ballot #1" and a copy of a Used Certificate Envelope that was stapled to it.

Notes:

1. Tabulators had five ballots that were questionable because they were not initialed. Deputy Clerk, Gina Gresch, testified regarding uninitialed ballots. On day of election, some ballots stuck together. BOC requests recount. Recount completed.
2. Thirty envelopes were set aside by the tabulators because of pink lines. Clerk Gresch testified that the pink line indicated an address verification. The BOC accepted the thirty as valid.
3. The BOC determined that 2 e-mailed ballots were remade at the polls. Clerk Gresch verified that took place and the BOC counted the remade ballots as valid.

Exhibits: None.

Notes:

1. BOC heard the testimony of Deputy Clerk Gina Gresch regarding 16 blank ballots with a single set of initials and 20 completely blank ballots found in the ballot bag. Unclear if these 36 total ballots ran through the machine on election night. Tabulators recount the ballots. BOC then determined that the tapes contained 2 wards, which explained any variances.
2. BOC examined a ballot marked as Exhibit #84. BOC determined that the original ballot and the remade ballot are both overvotes. BOC unanimously agrees to hand count the ballot as an overvote so it is accounted for as a vote cast.

Exhibits:

- Exhibit # 80: Ballot. BOC hand counted as a vote for Trump.  
Exhibit # 81: Ballot. BOC hand counted as a vote for Trump.  
Exhibit #82: Remade ballot. BOC determined it was not remade properly and will not be counted.  
Exhibit #83: Damaged (partially torn) ballot. BOC hand counted as a vote for Trump.  
Exhibit #84: Original ballot. BOC determined it will be hand counted as an overvote.  
Exhibit #85: Remade ballot. BOC returned to the pool to be counted.

**Notes:**

1. BOC notes a difference in poll books. Gina Gresch, Deputy Clerk, testified to the BOC that the official number of voters from the poll book is 728. She explains that during election day a poll worker ran out of numbers. The chief inspector caught this and tried to catch up throughout night. The next day they were instructed by the county clerk to renumber.

2. Recount tape showed 726 ballots. There were two extra ballots in Ward 2 that were brought to Ward 3 and counted.

Exhibits: None

Notes:

1. Poll book review tabulators assume based upon a random review that one voter number was transposed. (3513 and 5313 on pg. 141)
2. Exhibit # 72 was marked. It was a used certificate envelope with a ballot inside. BOC determined that the envelope was proper and ballot should be counted. Added to the pool of ballots.
3. Sealed ballot container found to contain a white envelope called "certificate of rejected absentee ballots", when opened by BOC. (Exhibit #73 is white envelope.) The two enclosed rejected absentee ballots are considered properly rejected by BOC.

Exhibits:

Exhibit #72: Used Certificate Envelope which contained a ballot.

Exhibit #73: Large white envelope labelled "Certificate of Rejected Absentee Ballots."

Exhibit #86: Original ballot #2018. Counted by the BOC as a scattering.

Exhibit #87: Remade ballot #2018. Not counted by BOC because original ballot was counted.

Variance:

On election night, registered write-in candidate McMullin had 27 votes and registered write-in candidate Maturen had 5 votes. For the recount, McMullin had 18 and Maturen had 2. The BOC reasons that the variance of the hand count for registered write-ins is that the tabulators are more fresh for the recount than the election night poll workers and the scattering has been accurately adjusted during the recount to show write-in votes.

Notes:

1. Discrepancy between number of voters and number of ballots counted in this ward. Town clerk testifies that 2 reporting units are at the same polling place with one machine. Voters given wrong ward ballot per inspection statement. 33 ballots issued from Wards 4-6 for voters of Wards 1,7,8. First 33 ballots issued were the ones that were incorrectly issued. Town reconciled poll books after election on election night per town clerk. Recounted, 1226 voters, 1273 ballots. BOC determined that ballots between Wards 4,5,6 and Wards 1,7,8 were mixed. Wards 1,7,8 were over voted by 47 and Wards 4,5,6 were undervoted by 46. The difference is 1. BOC shall draw down 1 vote. BOC went through process properly and came to one from general pool. Exhibit 98.
2. The BOC later conducted a reconciliation across the polling place for Wards 4,5,6 and Wards 1,7,8.

Wards 4,5,6

Poll Book 1526

Votes cast 1493

Wards 1,7,8

Poll Book 1226

Votes Cast 1259

Total

2752

2752

3. Candidate observer representing Green party raises objection that full check was not made for blank ballots before draw down was made.

Exhibits:

Exhibit # 98: Drawn down ballot. Vote for Clinton. After tape run, ballot was added back to the count.

Variance:

Difference for McMullin is that ballots were examined for write-ins during recount process.

Notes:

1. Clerk testified that she presented a complete absentee voter log and stated that she tabulated total number of ballots returned. New total is 1121. Clerk also testified that the original serial numbers on bags are contained in a ballot bag. Ballot bags were opened and re-bagged following an audit. The clerk testified that there is not a requirement to record new serial numbers. BOC is satisfied with explanation.
2. At time of absentee user certificate envelope reconciliation, it was discovered that absentee ballot log was only A through He. BOC requested missing pages. Candidate Observer for Green Party reserves right to object.
3. BOC opens ballot bag; 7 ballots identified during audit that they were sealed in wrong bag. They belong in wards 1 & 8. BOC decided ballots must be placed with wards 1 & 8.
4. Two valid ballots were found among absentee user certificate envelopes. They have been placed in separate bag to be counted.

Exhibits:

Exhibit # 151: Ballot to be hand counted as it is a copy of a ballot. Vote for McMullin.

Variance:

Discrepancy in number of votes for McMullin between election night and recount was based upon hand examination of write-ins during recount process.

Notes:

1. BOC requested explanation of discrepancy between poll list, envelopes and absentee log. Clerk testified that first absentee log was incomplete. She presented a log that she stated was complete and testified that she hand calculated the total.
2. BOC reviewed remade ballots. Setting a sheet folded as didn't know which envelope it was from per note from clerk. Ballots #7, 4, 8, 2, 5, 6, 11, 13, 3, 18, 17, 15, 12, 9 and 14 are accepted. No numbered ballot set aside, accepted that as #9. There is not a remade ballot for #16, 20, 19 – could be possible that they weren't pulled from the table. Two ballots were in the wrong ward (should be ward 2-6). The ballots were sent to voter for the wrong ward and were remade to this ward. Sheet folded matches remade ballot #14. Candidate Observer Gilding objects to counting these two ballots that were remade for this ward from another ward's ballots. BOC will wait for other ward to see if they match.

Exhibits:

Exhibit # 152: damaged ballot that would not go through the machine, hand counted. Vote for Clinton.

**Notes:**

1. Remade ballots: Alleged remade ballot #1. BOC's interpretation was original ballot #1 was a spoiled ballot, that the voter was issued a second ballot that was incorrectly marked by poll worker as duplicate ballot. BOC decided ballot to be cast. Stein Primary candidate observer objected to remade ballot #1 being cast. Clinton observer objected to ballot being counted, agreed with Inspectors' Statement. Poll books indicates ballot was spoiled and reissued ballot 2. BOC's decision remained same – ballot was cast on election day and should be counted. Marked as exhibits.
2. Write-in sheets from table not found, BOC using write in tally sheet from election night in Inspectors' statement.

Exhibits:

Exhibit # 112: The voted ballot that is to be returned to pool to be counted (ballot cast on election day)

Exhibit # 113: Spoiled ballot. Vote is overvote.

Exhibit # 153: Vote to be hand counted is an overvote but BOC determined voter intent. Vote cast for Clinton.

Exhibit # 154: Vote to be hand counted is an overvote but BOC determined voter intent. Vote cast for Clinton.

Notes:

1. Provisional ballot. BOC didn't find a need to open, marked as exhibit #121.
2. BOC compared the original ballots to remade ballots. Democratic representative accepted someone has looked at ballots and totals will come close. County Clerk Novack agreed and moved to accept these remade ballots as being voted. Democratic representative asked for advice from Counsel. Novack renews motion to have these voted. BOC Member Heric seconded, unanimous decision. Ballots marked exhibits #122-128.
3. Discussion on ballot where there was a circle and write-in. Parties all concurred with counsel. Marked as Exhibit 131 and will be hand counted. Decision was made to not run through machine and tallied as a write-in vote.
4. With assistance from Principal Asst. Corp. Counsel Debbie Price, BOC reconciled the votes across the wards at the same polling place (Wards 4, 5, 6, 7). Ward 5 lists one more vote than listed in the poll book, Ward 6 lists one less vote than voters in the poll book. Wards vote in same location.

Exhibits:

Exhibit # 121: unopened provisional ballot

Exhibit # 122 - 128: original ballots that were remade. Not to be counted in recount.

Exhibit # 131: ballot from note #3 to be hand counted for Clinton.

**Notes:**

1. 12/4 opening of absentee ballots. Discrepancy from county and clerk's copy. Brookfield clerk states the discrepancy reason. 371 envelopes and 5 military counted by tabulators. 369 were marked in poll book. BOC asked for a recount. Envelope recount was 2 different: the two envelopes were remades (Exhibits #133 and #134) and removed. Count changed to 369.

2. With assistance from Principal Assistant Corporation Counsel Debbie Price, BOC reconciled votes across the wards at the same polling place: (Wards 8, 9 and 10). All three wards were reconciled and BOC revised the recount vote totals.

Exhibits:

Exhibit # 133: envelope from note 1

#### Notes:

1. 12/4 4:45 – BOC reviewed remade ballots. There were 2 remade. Ballot #1 and #6 (write-in) are accepted and returned to the pool.
2. There were additional original ballots. City clerk retrieved Inspectors' Statement which says there were 5 remade. Clerk believed they could be spoiled ballots and not remade.
3. One ballot that did not match is from ward 16 city of Brookfield, wrong ballot given and then given to ward 15. BOC held on to these ballots until they go through machine, if count is

significantly different they will revisit. Clerk recommended the tabulators continue to look for remades as they fed the ballots in the machine.

4. 12/9 – Reconciliation made across polling place: City of Brookfield wards 14, 15, 16 and 17 vote at same location. BOC accepted reconciliation.

**Notes:**

1. 12/4 at 6 pm - BOC reviewed remade ballots. There were 3 originals and numbers were not on proper corner of ballot. Ballots #18, 20 and 24 accepted and returned to pool. Opened spoiled ballot envelope to look for other possible remade ballots. In spoiled envelope, ballots #14, 10, 19 and 17 accepted. Original ballots #16 and 15 do not have remade. Rejected AB Certificate appropriately rejected, voter submitted a new ballot. BOC matched what they could and accepted all remades.

2. 12/4 – Hand written tally showed 9 write ins; tape showed 8 scatterings. Machine must have registered one as an undervote. Manual recount identified those ballots. Subtracted 3 from undervotes and added in to tally.
3. 12/9 – Reconciliation made across polling place: City of Brookfield wards 18,19, 20 and 21 vote at same location. BOC accepted reconciliation.

**Notes:**

1. Tabulators had one envelope they want reviewed without signature. BOC agreed it should have been rejected on election day – envelope marked as exhibit #162.
2. 12/5 1:55 – BOC reviewed remade ballots; original ballot #10 (exhibit #164) and remade ballot #13 (exhibit #165) are missing their respective remade or original. Tabulators may not have found them. 34 remade ballots are accepted and returned to the table to be run.
3. 12/5 5:50 pm – BOC reviewed remade ballots. One ballot has two ballots sent and the front of one was filled and the back of the others was filled out; remade into one. One original was not notated but matched #13. BOC decided it was a clerical issue. BOC accepted 35 remade ballots to be returned to the pool with a note to the clerk that they train poll workers to make the correct notations on original remade ballots.
4. 12/5 – 6 more ballots than voters. Discussion on a draw down. BOC decided to draw down from presidential undervotes only.

5. 12/5 6:35- Table found ballots that have presidential Undervotes. Erik Weidig, Corporation Counsel reviewed statute on draw down selection. His opinion was that completely blank ballots should be looked for first; then ballots with no or one set of initials. One ballot needs to be from absentee group.
6. Delafield Wards 1-14 was 6 ballots over voters. No blank ballots were found. Missing initials of 5 ballots. BOC reviewed and discussed possible draw down and proceeds to draw down. Table captain said all ballots were reviewed and none were found to be blank. Draw down one from the entire pool of ballots and Canvasser O'Herron picks one ballot from the absentee pile. Remaining ballots were shuffled by O'Herron and selections were made by Deputy Clerk Kathy Karalewitz.  
Draw down exhibits:
  - i. Exhibit #166 +1 Clinton
  - ii. Exhibit #167 +1 Clinton
  - iii. Exhibit #168 no presidential vote
  - iv. Exhibit #169 +1 Trump
  - v. Exhibit #170 +1 Clinton
  - vi. Exhibit # 171 +1 Trump
7. Initial Running of ballots through machine showed actual count of 4461. 5 draw down ballots to be counted.
8. Randy Melchert, primary observer for the Republican party, asked for verification that the 5 ballots from the draw down were going back into the count. BOC adjusted the totals.

Exhibits:

Exhibit # 162 – Used Certificate Envelope had no signature – properly rejected

Exhibit # 164 – Original email ballot # 10

Exhibit # 165 – Remade ballot #13

Draw down exhibits:

Exhibit #166 +1 Clinton

Exhibit #167 +1 Clinton

Exhibit #168 no presidential vote

Exhibit #169 +1 Trump

Exhibit #170 +1 Clinton

Exhibit # 171 +1 Trump

Exhibit #173 – hand count +1 Trump

Notes:

1. One absentee ballot envelope did not have an address of a witness, rejected, marked as exhibit #177 and voter number is reduced.
2. One ballot cast over voters by one. BOC member Heric wants to check it over again before ruling on this concern. Number used twice in the Inspectors' Statement, number may not have been adjusted. Per Inspectors report: Ward 2-more ballots cast than voters, 5 numbers were used twice. Poll book off by 5. Wards 2 and 3 also vote at this location, BOC concludes both of those wards reconciled. Results of discrepancy between voters/cast ballots, consulted inspector statement based on number issued twice – reconciled number of voters and votes cast.
3. Discussion by BOC on 12/6 on possible draw down. Atty. Haines indicated Atty. Weidig spoke with Diane Lowe with the WEC regarding the process on how to draw down per statute. BOC agreed to do a draw down. Municipal Clerk opened the bag with the absentee ballots. BOC removed ballots and shuffles them. BOC did a random draw from absentee ballots for draw down. Vote for Clinton, ballot marked exhibit 221.

Exhibits:

Exhibit # 177: rejected absentee voter envelope  
Exhibit # 221: draw down ballot, vote for Clinton

Notes:

1. District 2 consists of wards 4-7 in the City of New Berlin. Ballot bag numbers recorded with no recorded numbers on the log. No ballot bags for #12124, #12121, or #44253 on sealed document record log. City Clerk Dan Green says they may have used a different bag. County Clerk Novack noted in minutes that 7 bags are recorded and the 7 bags have to match.
2. Inspectors report is checked. Blank ballot received, not processed. Marked as an Exhibit #163.
3. One Ward 3 ballot was moved to Ward 4.
4. Reconciliation made across polling place: City of New Berlin wards 4, 5, 6, and 7 vote at same location. BOC accepted reconciliation.

Exhibits:

Exhibit # 148: ballot that was run with ward 5 that is for ward 4, hand counted. Vote for Trump.

Exhibit # 163: Absentee ballot envelope and blank ballot not counted on election night.

Exhibit # 175: Ballot returned to pool of ballots.

Exhibit # 176: Ballot returned to pool of ballots.

Exhibit # 177: Ballot returned to pool of ballots.

Notes:

1. BOC reviewed the number, 1066 on poll book, 1069 physical ballots. BOC reviewed Inspectors' Statement. BOC asked to have captain look at poll book. Voter 327 in one poll book and not the other, do not think number was reassigned. Wards 4-7 vote in same location. There was 3 over in ward 5 and one under in ward 4 for a net of 2 over. BOC recognized last # on poll book on page 17 Supplemental. BOC will wait for tape to be run, if tape shows 2 blank ballots then they will be pulled from count.
2. From central count, 2 original remade ballots did not match leftover remade ballots. BOC accepted as exhibits. If short by 2, they will be accepted as hand tally. BOC accepted the intent of voter exhibit #184 accepted; exhibit #185 not found.

Exhibits:

Exhibit # 147: ballot rejected by machine, hand counted. Vote for Trump.  
Exhibit # 184: accepted as valid ballot, hand counted. Vote for Trump.  
Exhibit # 185: Original ballot, remade not found. Vote for Clinton.

#### Notes:

1. BOC discussed 1063 voters vs. 1064 ballots. Absentees unknown at this time as they are run in a central count. BOC asked clerk Dan Green about 1 over vote. Ward 9 ballot may have something on Inspector's Statement. Pending viewing of statement. Clerk Green said one ballot was jammed in the machine and may have been reread. Inspector statement of ward 9 shows no absentee ballots to review. Tabulators are asked to look for blank ballots. Then if none found, look for no or one set of initials in case a draw down is needed. One ballot was put in another ward by mistake so more voters than ballots.
2. In Central count, there was a ward 9 ballot in the ward 8 ballot bag, ballot should be moved to central count ward 9.

3. While reviewing remade ballots, original 16 does not match remade 16, the remade number has been written over but does not reflect the intent of the voter. Exhibit 180 is the remade ballot and returned to pool.
4. Ward 8 has one extra ballot and Ward 9 is one ballot short. BOC recognized one extra vote in ward 8 and one less in ward 9 and nets out to the reporting ward.

Exhibits:

Exhibit # 180: remade ballot that did not match the original.

Exhibit # 182: Original Damaged Ballots Envelope.

Exhibit # 238: Ballot found in another ward; hand counted for Clinton.

#### Notes:

1. City of New Berlin Ward 15 is 1 ballot over. BOC reviewed tapes regarding the ballots' over/under tally amount.
2. Wards 11-16 District 4 New Berlin all vote at same polling place.

3. Draw Down needed. No blank ballots found, nor any with no or one set of initials were found. Rep indicates that Central Count is short, can't be applied to that as the ballots are run in different locations. Canvasser Heric observed that one ballot in sample is scored, but this is not an absentee pile, some absentee ballots are sent to polls. Drawdown, Canvasser Mary Ann Hanson pulls a random ballot which is for Trump and it marked as Exhibit # 183.
4. There were 1129 from poll book, 1127 went through the machine, so exhibit 183 is hand counted and added into total for Trump.
5. Reconciliation made across polling place: City of New Berlin wards 11,12, 13, 14, 15 and 16 vote at same location. BOC accepted reconciliation.

Exhibits:

Exhibit # 183: Ballot. Mary Ann Hanson pulled a random ballot which is for Trump.

Exhibit # 280: Ballot marked as a vote for Clinton and a write- in for Clinton. Added as 1 vote for Clinton to hand counted.

Notes:

1. BOC reviewed rejected absentee ballots, which matched hash marks on Inspectors' Statement. Both missing witness address, initially accepted as properly rejected. However, after further inspection, they appear to be husband and wife ballots where they witnessed each other, so the address is on the envelope. BOC agreed they are NOT properly rejected and should be accepted and hand tallied at close out. Marked as exhibits # 212-215.
2. Inspector statement noted 130 tickets skipped handing out election night.

Exhibits:

Exhibit # 212: Absentee ballot envelope with witness signature to be accepted.  
Exhibit # 214: Ballot from within Exhibit # 212, vote for Trump. Hand counted.  
Exhibit # 213: Absentee ballot envelope with witness signature to be accepted.  
Exhibit # 215: Ballot from within Exhibit # 213, vote for Trump. Hand counted.

Notes:

1. BOC consulted Clerk of New Berlin regarding the regular voting location for Wards 22 & 23. BOC examined the inspector's statement as there was one more vote than voters in one ward and a corresponding number of less voters in the other ward. Based upon testimony and evidence, BOC concluded the votes were incorrectly cast in the opposite wards and decided to count the votes. Steve/Clerk recounted Wards 22 and 23. Previously discussed BOC said vote cast in 1 ward vs. other and will be cast together. BOC approved.

**Notes:**

1. 12/6 - BOC reviewed 2 rejected Absentee ballots. First one rejected for no address for witness (overseas ballot) received 10/3/16 in office. Could not open as it was a live ballot and could only be opened on election day. Voter had received instructions with ballot. BOC agreed that it was properly rejected. Second absentee ballot had no witness or signature. BOC confirmed rejection.
2. BOC reviewed remade ballots. Do not have a remade for original ballots #7, #8, #11. All match. The ones missing was assumed to be in the pool. The originals are marked as Exhibits 216 in case numbers are off. Count did agree with inspector statement. 19 ballots accepted and returned to the pool.
3. 12/6 – 2:40 pm 3 ballots that were remade were found matching them to the ballots of Exhibit #216: #7, #8, #11 accepted and returned to the pool.

4. 12/7 - #316 is a ballot that had a mark on it outside the voting area and the machine rejected.  
Hand counted +1 Trump.

Exhibits:

Exhibit #316: Ballot that had a mark on it outside the voting area and the machine rejected. Hand counted +1 Trump.

Notes:

1. 12/6 - one ballot had no initials. BOC ruled that in keeping with their practice they do not want to nullify the vote based on a clerical error and accepted the ballot. BOC reviewed remade ballots. Table found 22 numbered remades, there are more originals than remades, 41. No remades were found for original ballots #1-13, 15, 16, 22, 24, 25, 28, 30, 35, 39-41 and a few without numbers. There were remades marked as absentees. They will try to match those to the originals that have not been matched.
2. All remades have been matched. Total number of ballots reconciled and due to poll worker error they were not matched. Those originals that did not match were not marked. Those originals that did get marked as Exhibit #189.
3. 22 remades were returned to the pool to be counted.
4. BOC instructed tabulators to run the ballots.

Exhibits:

#189 – Original ballots that were not numbered to match remade ballots.

Notes:

1. Pewaukee clerk stated remade ballots were marked by voter number and not remade number. This will be corrected going forward.
2. Of remade ballots, 6 ballots matched originals, 8 ballots that they were unable to match, BOC Member Worton had 9. Table captain informed BOC that they have 2 remade ballots and cannot locate originals. BOC agreed they were made with valid attempts. Green party primary observer inquired about the ballots that were unable to be matched. Democratic primary observer objected; Green party joined in objection. BOC informed Pewaukee Clerk to staple emailed ballots in the future. See general minutes of 12/7/16 for re-assertion of objection.

Exhibits:

Exhibit # 229: ballot rejected by machine, hand counted. Vote for Clinton  
Exhibit # 232: ballot rejected by machine, hand counted. Vote for Clinton.  
Exhibit # 233: ballot rejected by machine, hand counted. Vote for Clinton.  
Exhibit # 235: ballot misfiled in wards 9-10 for this ward, hand counted, vote for Trump.  
Exhibit # 600: OS ballot to be hand counted. Vote for Trump.  
Exhibit # 601: Damaged ballot to be hand counted. Vote for Trump.  
Exhibit # 602: Damaged ballot to be hand counted. Vote for Trump.

#### Notes:

1. Voter tallies matched ballots, but removed two ballots because of the write-in names. BOC counted 1 as McMullen and one is indiscernible and not attributed to any candidate.
2. BOC reviewed remade ballots. Question on a remade ballot that wasn't marked at all and agreed to be hand counted. Marked as Exhibit #225 remade and #227 original. Counsel

indicated they both are to be marked and the remade ballot #227 will be counted, exhibit #225 will not be counted.

3. Of the other remade ballots, cannot identify 3 remade to the original 12 ballots. One of the three remade ballots belonged to ward 8-10. BOC accepted the remades. Green Party Observer wanted to compare and requested clarification of the 2 remaining remade. Both accepted.

4. Had an Absentee envelope. Voter changed vote and envelope still sealed.

Exhibits:

Exhibit # 225: remade ballot, not counted

Exhibit # 227: original ballot, hand counted, vote for Trump

**Notes:**

1. On page 52 of poll list, there was a voter with no voter number, but a signature; also on page 52, a voter number 272 for same voter.
2. Green party primary observer objected to Exhibit #315 that this ballot be counted due to prior routine. Her observation was that they were not being counted, but was an undervote. BOC will add it back in as a hand count.

**Exhibits:**

Exhibit # 315: Ballot for write-in candidate without oval filled in, hand counted for McMullin.

<b>Total</b>	<b>337</b>	<b>Total</b>	<b>343</b>

Notes:

1. The number of voters in the Absentee Poll List is 165. The #63 is duplicated. Voter #63 used on page 20 and supplemental page 1. The number of absentee voters on the Poll List should be 166 to account for #63 being used twice.
2. Two voters that were on poll list for Ward 39 were given ballots for Ward 34.

Exhibits:

Exhibit # 527: Ballot. Machine cannot read, marked outside oval. Hand counted +1 Trump.

Notes:

1. One original absentee ballot application was improperly accepted by the reporting unit on election night as the witness address did not have a city, state, zip. Attorney advised that there is a need for a full address. A ballot will need to be drawn down from the pool of absentee ballots. BOC pulls one ballot from pool of absentee ballots. This ballot was marked Exhibit # 379.

Exhibits:

Exhibit # 377: Official Absentee Ballot Application/Certification improperly accepted.

Exhibit #378: Ballot with write-in without oval filled out, to be hand counted. Vote for Clinton.

Exhibit # 379: Drawn down ballot as a result of ruling an accepted absentee ballot was improperly accepted. Vote for Trump

Exhibit #549: ballot rejected from the machine and will be hand counted (circle not marked). Vote for Clinton.

Exhibit #550: Ballot rejected from the machine and will be hand counted. Vote for Clinton.

Exhibit #551: Ballot rejected from the machine and will be hand counted. Vote for Trump.

Exhibit #552: Ballot rejected from the machine and will be hand counted. Vote for Clinton.

Exhibit #553: Ballot rejected from the machine and will be hand counted. Vote for unregistered write-in.

Exhibit #554: Ballot rejected from the machine and will be hand counted. Vote for Trump.

Exhibit #555: Ballot rejected from the machine and will be hand counted. Vote for Trump.

Notes:

1. There are 844 in the poll book and 845 ballots. After doing a grid on the poll book, Attorney Weidig requests a draw down. Tabulators instructed to look for completely blank ballots and then ballots with either no or one set of initials. There were five without initials and those were used for the pool for the draw down. Ballot drawn down and marked Exhibit # 298.
2. After tape is run, there are 843 ballots counted, so Exhibit #298 of drawn down ballot is added back in.

Exhibits:

Exhibit # 298: Drawn down ballot. Vote for Trump. Added back to count after tape run.

Exhibit # 324: Remade ballot that has a sticker on it and cannot be run through machine, will be hand counted. Vote for Clinton.

Exhibit # 325: Remade ballot that has a sticker on it and cannot be run through machine, will be hand counted. Vote for Trump.

Exhibit # 326: Remade ballot that has a sticker on it and cannot be run through machine, will be hand counted. Vote for Trump.

Notes:

1. 877 ballots counted on table. BOC will do draw down of 3 ballots. Tabulators instructed to look for blank ballots and then ballots without any or with one set of initials. One ballot found with one set of initials, BOC goes to table to do draw down from the rest of the entire pool of ballots. Three drawn down ballots marked Exhibits # 253-255.
2. After ballots are run, there were 871 ballots and 874 voters, the three drawn down voters are added back to the count by hand.

Exhibits:

Exhibit # 253: Drawn down ballot with 1 set of initials, vote for Trump; subsequently added back to count.

Exhibit # 254: Drawn down ballot from pool of ballots, vote for write-in McMullin; subsequently added back to count.

Exhibit # 255: Drawn down ballot from pool of ballots, vote for Trump; subsequently added back to count.

Exhibit # 289: Remade ballot with sticker that cannot go through machine, hand counted. Vote for Clinton.

Exhibit # 290: Remade ballot with sticker that cannot go through machine, hand counted. Vote for Trump.

Notes:

1. 12/7 /16 1124 voters on Inspector's Statement for total number of voters. Tabulators count 1129 ballots. Clerk Moyer has noted on her paperwork that there were duplicate numbers used, 5 total, which would equal the 1129. BOC recommends a grid to be done.
2. Four ballots for Ward 3 were found with this ward, marked as Exhibits # 484-487 and moved to ward 3; now 1125 ballots.
3. 12/8/16 There are now 1122 voters and 1125 ballots. Tabulators asked to find blank ballots, then ballots without or with only one set of initials to begin draw down process for 3 ballots. BOC goes into tally room to conduct draw down. Tabulators found 3 ballots without initials but ballots with one set of initials will be added to increase the pool to draw from. 3 draw down ballots marked Exhibits 508-510.

Exhibits:

Exhibit # 347: Remade ballot that has a sticker and cannot be run through machine, hand counted. Vote for Clinton.

Notes:

1. Village clerk appeared to explain envelope found and marked Exhibit #375. Appears the ballot was not counted on election night. Envelope has voter #. BOC reviewed the ballot and if intent is shown, it will be counted. Intent is Trump. Ballot marked as exhibit #376. Clerk checked poll book for voter number and it's in the poll book.
2. Counsel said evidence is that the voter is in the log so the number of voters stays the same, but votes go up so then there is a draw down situation. BOC requested tabulators to do a grid to look for duplicate numbers. Table captain found one ballot that was not in the proper ward. Because of this discovery, there is not a need to conduct a draw down.

Exhibits:

Exhibit # 367: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Trump.

Exhibit # 368: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Clinton.

Exhibit # 369: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Trump.

Exhibit # 370: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Clinton.

Exhibit # 371: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Trump.

Exhibit # 372: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Trump.

Exhibit # 373: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Clinton.

Exhibit # 374: remade ballot with a sticker that cannot go through machine, hand counted. Vote for Clinton.

Exhibit # 375: Absentee in person envelope separate with a ballot.

Exhibit # 376: Ballot from absentee ballot envelope. Voter intent shown and will be hand counted. Vote for Trump.

**Notes:**

1. BOC performed draw down of 1 ballot from probable absentee ballot pool because Exhibit #512 should have been rejected. BOC Member Wortmon pulls Trump ballot marked as Exhibit #513. Draw down not to be counted.

**Exhibits:**

Exhibit # 512: Absentee envelope accepted on election day but BOC noted no witness signature and should have been rejected.
